INDUSTRY EXPERIENCE   GitHub Address

Penn LPS Bootcamp, Pittsburgh, PA   **https://github.com/PWFollett**
Software Developer, 2019

Curriculum: Can be viewed on my GitHub profile listed above.

National Parks Finder: We built an application that helps individuals find a national park or forest nearest to them or anywhere in the US. We called the NPS API to gather and post the information.
    HTML/Bootstrap/CSS/Git

InstaGame: We developed an application that is an online blog for gamers where they can come and talk about games--whether it be good or bad. It was an introduction to a community JNP productions wanted to build.
    HTML/Node/CSS/SQL/JavaScript/Git

LocoBounce:. We created a projects using React.js and Bootstrap for the UI, and used mongoDB and mongoose for the databases created RESTful API to connect, used firebase for authentication and .env to secure it. Essentially used a MERN stack for this project.
    BootStrap/HTML/Node/Express/CSS/Git/React
